EXPLANATION

A **RCGA Course Rating** is the RCGA's evaluation of the playing difficulty of a course for scratch golfers under normal course and weather conditions for the purpose of providing a uniform basis on which to issue **RCGA Handicap Factors**. It is expressed as strokes taken to one decimal place, and is based on yardage and other obstacles to the extent that they affect the scoring ability of a scratch golfer.

A **RCGA SLOPE Rating** evaluates the relative playing difficulty of a course for players who are not scratch golfers. The lowest RCGA SLOPE Rating is 55 and the highest is 155. A golf course of standard playing difficulty has a RCGA SLOPE Rating of 113.

Course Ratings are determined, by permission of the Royal Canadian Golf Association, in accordance with the RCGA Course Rating System. **RCGA Course Ratings, SLOPE** and **Handicap Factor** are service marks owned by the RCGA and may only be used in connection with the RCGA Handicap System.
